

Posy Row Block

Block size:
9" finished
(9½" unfinished)

Cutting Instructions

Left Flower:

- A - one 5" square

Right Flower:

- B - one 5" square

Background:

- C - eight 2" squares
- D - four 1½" x 2¼" rectangles
- E - four 2¾" squares

Left Stem and Leaves:

- F - one 1½" x 5" rectangle
- G - two 2¾" squares

Right Stem and Leaves:

- H - one 1½" x 5" rectangle
- I - two 2¾" squares

Sewing Instructions

1. Use the C pieces to snowball all four corners of the A and the B pieces.
2. On the back side of each E piece, draw a diagonal line from one corner to the opposite corner. Place the E pieces right sides together with the G and the I pieces. Sew on each side of the marked line. Cut apart on the line, press open, and square to 2¼". This will result in four EG half square triangles and four EI half square triangles.
3. Sew together the EG units and the EI units as shown in the diagram. Then add the D pieces to the top of each leaf unit.
4. Using the F and H stem pieces, assemble each stem/leaf unit as shown in the diagram.
5. Sew the flower heads from step 1 to the stem/leaf units from step 4 to make two flower units. Then sew the two flower units together, being sure to match the seams.

Suggestion: Consider pressing your seams open, especially where snowballed pieces or diagonal seams meet each other. Having the seams pressed open will make it easier to match the seams.

Note: Measure your completed block. If it is more than ⅛" undersized, please try to rework to correct the size. If the block is slightly oversized, please do not trim. (It will be trimmed as needed at the next step.)
